

1<sup>ST</sup> **SERBIAN CONGRESS  
OF CLINICAL MICROBIOLOGY**  
**SCCM 2023**  
WITH INTERNATIONAL PARTICIPATION  
10-12. may 2023.  
CROWNE PLAZA HOTEL

**PRELIMINARY PROGRAM**

WEDNESDAY, 10.05.2023.

 > **SYMPOSIUM : Antimicrobial resistance, diagnostic and antimicrobial stewardship**

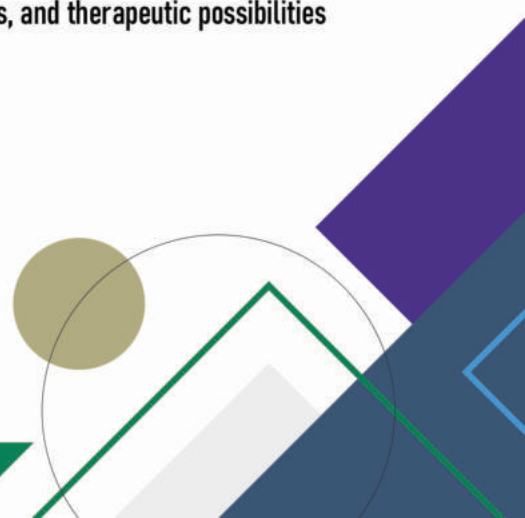

- **The global consequences of AMR**  
Dr Robert Skov, Denmark
- **EURGen-RefLabCap and how to increase capacity of NRL in AMR in Europe**  
Anders Rhod Larsen, PhD, Denmark
- **Antimicrobial stewardship in high AMR settings**  
Prof. dr Bojana Beović, Slovenia
- **Diagnostic stewardship – the single biggest potential game changer in the fight against AMR**  
Prof. dr Ana Budimir, Croatia

 > **SYMPOSIUM : Urinary tract infections**

- **Clinical aspects of urinary tract infections: from mild to complicated**  
Prof. dr Aleksandar Vuksanović
- **Exploring the urinary microbiome: facts and therapeutic potential in the era of multidrug-resistant uropathogens**  
Prof. dr Tomislav Meštrović, Croatia
- **Guideline for microbiological diagnosis of urinary tract infections**  
Dr Predrag Bugarić

 > **SYMPOSIUM : Antimicrobial resistance and antimicrobial therapy**

- **Infections by Gram-negative MDR and DTR bacteria - clinical challenges, dilemmas, and therapeutic possibilities**  
Prof. dr Siniša Sević
- **EUCAST 2023: how updates in interpretation of AST effect on therapy**  
Prof. dr Ivana Ćirković
- **Surveillance of AMR in Serbia: can we improve data quality?**  
Doc. dr Deana Medić
- **Is AMR a problem only in hospital settings?**  
Dr sci. med. Snežana Brkić

1<sup>ST</sup> **SERBIAN CONGRESS  
OF CLINICAL MICROBIOLOGY**  
**SCCM 2023**  
WITH INTERNATIONAL PARTICIPATION  
10-12. may 2023.  
CROWNE PLAZA HOTEL

**PRELIMINARY PROGRAM**

THURSDAY, 11.05.2023.

**☰ > PANEL : Hot topics – viral and bacterial vaccines**  
Prof. dr Miloš Marković, Prof. dr Ana Banko, Prof. dr Vera Mijač

**🏛️ > SYMPOSIUM : Fungal Infections**

- **Invasive fungal infections in the intensive care unit**  
Prof. dr Jovan Matijašević
- **The current workflow of clinical mycology in silver status ECMM Excellence Center, University Hospital Center Zagreb**  
Doc. dr Sanja Pleško, Croatia
- **Fungal susceptibility testing on antifungal drugs - review of methods and principles of interpretation**  
Dr Dragana Ivanović
- **Optimized antifungal drug management guided by biomarkers**  
Doc. dr Eleonora Dubljanin

**👥 > Meet the experts: HBV, HCV**

- **The role of new hepatitis B biomarkers in solving diagnostic dilemmas**  
Prof. dr Ivana Lazarević
- **Are there challenges in the treatment of HCV infection - how far are we from 2030?**  
Prof. dr Ivana Milošević

**👥 > Meet the experts: HIV infections**

- **HIV novelties in the field of diagnostics and resistance**  
Prof. dr Maja Stanojević
- **Challenges in the treatment of HIV infection today**  
Prof. dr Gordana Dragović Lukić

**☰ > PANEL : COVID-19 infection – experience for the future**  
Prof. dr Ana Banko, Prof. dr Goran Stevanović

# 1<sup>ST</sup> SERBIAN CONGRESS OF CLINICAL MICROBIOLOGY

## SCCM 2023

WITH INTERNATIONAL PARTICIPATION

10-12. may 2023.

CROWNE PLAZA HOTEL

## PRELIMINARY PROGRAM

FRIDAY, 12.05.2023.

### > SYMPOSIUM : Infections of the intestinal tract

- **Testing gut microbiome in clinical microbiology**  
Prof. dr Dragana Vuković
- **A new concept in diagnosis of viral gastroenteritis - an overview of modern diagnostic procedures**  
Prof. dr Maja Čupić
- **Parasites of digestive tract: diagnostic guidelines**  
Prof. dr Ivana Čolović Čalovski
- **Updates in the microbiological diagnosis of *Clostridioides difficile***  
Prof. dr Predrag Stojanović
- **Current therapeutic guidelines in treatment *Clostridioides difficile* infections**  
Prof. dr Nadica Kovačević

### > PANEL : Truths and misconceptions in the interpretation of microbiological results for preparation for IVF - experiences of microbiologists, gynecologists and urologists Prof. dr Slobodanka Đukić, Prim. dr sci. med. Biljana Arsić, Prof. dr Dejan Dragičević

### > MINI SYMPOSIUM : Biofilm and upper respiratory tract infections - opportunities for therapy

- **Upper respiratory tract infections - role of biofilm in pathogenesis**  
Doc. dr Ana Jotić
- **Do antibiotics have an alternative in the therapy of biofilm-mediated GRT infections?**  
Prof. dr Dragana Božić
